PROFILE

rescent Chemicals, the flagship company of The Crescent Group was established in 1964 in Mumbai as a trader in Industrial Chemicals, Solvents & Polymer Products.

With the expansion of business, in trading and related activities keeping in view of the objective of concentrating on market development of agency products, enlarging the range of trading items and strengthening the import, export & indenting facility an associate company was incorporated in Feb., 1991 in the name of **Crescent Organics Pvt. Ltd.**

Products marketed by Crescent caters to all the segments of the Indian Industry with the marketing network in all major cities viz., Mumbai, Delhi, Baroda, Ahmedabad, Daman, Hyderabad and Chennai. Both the companies have direct access to all major end-users. Crescent handles half a million tonnes of bulk and packed products annually and also has adequate storage facilities for handling bulk imports as well as ample warehousing facilities to store packed products. Having strong relationship with Indian Chemical, Petrochemical and Polymer industries, we have diversified our business activities in the field of exports also.

Apart from trading, distribution & indenting on behalf of our customers, Crescent renders ancillary services including storage in shore tanks at terminal ports, custom clearance, cargo-survey and arranging deliveries as per customers requirements. Transparency of Crescent's business policy makes the users feel secure and satisfied.

The extensive experience accumulated for over the past 50 years has helped Crescent to maintain its outstanding position in the field of chemical & polymer trading and distribution. Determination to move forward against the odds, optimistic out-look and our limitless urge to improve on the performance year to year, have been a combining factor in achieving the status that the Group currently enjoys.

Looking ahead we are confident enough in our ability to exploit new market opportunities brought about by the changing global scenario. It will be our constant endeavor to provide better and improved services to both our customers and suppliers, which is the key to our success.

Human Resource is the most valuable asset for the Group. Crescent's performance and resulting productivity is an indicator of the high satisfaction level of its employees. For the betterment of the Human Resources, Crescent has laid down a vision & mission and we project this vision to integrate management skills with future growth.

Crescent Innovative Packaging Pvt. Ltd. (CIPPL) is one of the latest ventures of The Crescent Group. Through Crescent Innovative Packaging we have ventured & diversified into manufacturing of Block Bottom Welded Woven Sacks & Flexible Intermediate Bulk Container (FIBC) / Jumbo Bags. This project has been commissioned in April 2012 and these sacks are being produced on a 100% integrated line from Windmoller & Holscher (W&H), Germany. This 'Generation Next' plant is amongst the first of its kind in India and produces innovative sacks for applications such as packaging of Cement, Gypsum, Fertilizers, Cereals, Chemicals, Plastic Resins, Sugar, Salt etc.

In order to benefit from fast growing globalization of the Indian Trade, the Group has acquired in the year 2000 a major shareholding in **Kemsol Ltd.**, an UAE based chemical & polymer trading company having state of the art warehousing facility in Jebel Ali Free Trade Zone and caters to middle eastern customers.

Kemsol has also invested in **SA Solar FZ LLC** in partnership with Visa Group, Mumbai and diversified into Solar Photovoltaic Power Systems, offering a one-stop solution to the complete Solar PV Plants from Project Feasibility, Government Policies & Guidelines up to and including the Plant Design, Construction, Maintenance and Management of the same.
